

## ERA Young Lawyers Academy

The ERA Young Lawyers Academy is a ten-day intensive course. Young lawyers in private practice will be trained on cross-cutting areas of European law. Four academies will be held in 2023 and 2024. The project will contribute to the effective and coherent application of EU law among young lawyers in private practice across Europe.

## About the project

The main objective of the project is to raise awareness of cross-cutting areas of EU law and to be able to contribute to the effective and coherent application of EU law among young lawyers in private practice across Europe. In this project a series of intensive courses of ten-days' duration will be organised in English in Trier (Germany), providing initial training to 30 young lawyers per group on EU law.

### Why should you apply?

This course will not only provide you with practical knowledge on EU litigation, fundamental rights, the rule of law and data protection, but it will provide a platform for exchange of best practices, information and knowledge creating close contacts among young lawyers from different EU Member States. It will include visits to the Court of Justice of the EU in Luxembourg and the European Court of Human Rights in Strasbourg.

### Interactive and practice-oriented courses

Each course consists of thirteen sessions which will be practice-oriented and offer a mixture of training methods, varying from lectures to group exercises presented by EU and national legal experts, including experienced lawyers in private practice.

### Participation

The target group of the training will be "young lawyers in private practice", including trainee lawyers and – in jurisdictions in which initial training does not include a period of legal practice – newly qualified lawyers with less than three years of experience.

A person is considered a "trainee lawyer" if s/he is regarded as such under national law, including in the form of an induction or apprenticeship period, and if s/he has not attended initial training activities for more than three years.

This definition does not include law students. Participants need to fulfil the criteria at the beginning of the year 2023, therefore a trainee passing the bar exam or being newly qualified as a lawyer in the course of 2023 can still apply for the events.

Participation is possible only upon nomination by the partners of the project. For further information please turn to the local bar association.
